SUBJECT Soviet Air Force Ammunition Depot at
Finow-Vorwerk Biesenthal (Including
Sketch)

DATE OF REPORT 9 July 1957

25X1

LAST REPORT ON SUBJECT
(If applicable)

ANNEXES

No. of Pages....2

1. According to observations made between 11 and 14 March 1957, the sheds in the northern section of the ammunition depot at Finow-Vorwerk Biesenthal were under repair. Repair works were scheduled to be completed prior to 1 July 1957.
2. Camp Biesenthal is located immediately east of the road between Finow and Biesenthal, its northern section as far as about Milestone 6.95, and its southern section as far as Milestone 7.9. The restricted area has an estimated extension of 1,200 to 1,300 m to the east. Rail shipments of ammunition arrived and were dispatched on a feeder line, leading from Finow Railroad Station along the Finow-Biesenthal road to the north-western portion of the ammunition depot.

No rail shipments took place between mid-March and mid-May 1957.

Comment. For lay-out sketch of the depot, see annex. The sketch was drawn up in early May 1957, and the supplies interesting details on buildings and installations of the ammunition depot of the Twenty Fourth Air Army at Finow
